

As a Year 1 Geographer I will know...

- basic vocabulary and concepts about weather and the climate;
- the main nations and features of the UK, including their locations and related key vocabulary;
- the location and features of my local area.

As a Year 1 Geographer I can...

- create a simple weather chart;
- annotate a simple map of the UK with some of its key features;
- look at simple maps and aerial views of the local area, discussing and asking questions about its main features and the way symbols have been used;
- work together to create a simple map of the local area;
- observe, record, discuss and ask questions about the main features of the local area, based on direct experience;
- make connections between their investigation of the local area and what they have learned about weather, climate and the UK;
- use appropriate vocabulary when describing local features and those of the UK, including for seasons and local weather.

In addition, children should have had opportunities to develop their locational and place knowledge, geographical vocabulary and skills of enquiry, fieldwork and mapwork through incidental opportunities within other subjects and via 'geography in the news'
